PEDAL POWER • ELECTRIFY YOUR FITNESS

PRODUCT DESCRIPTION

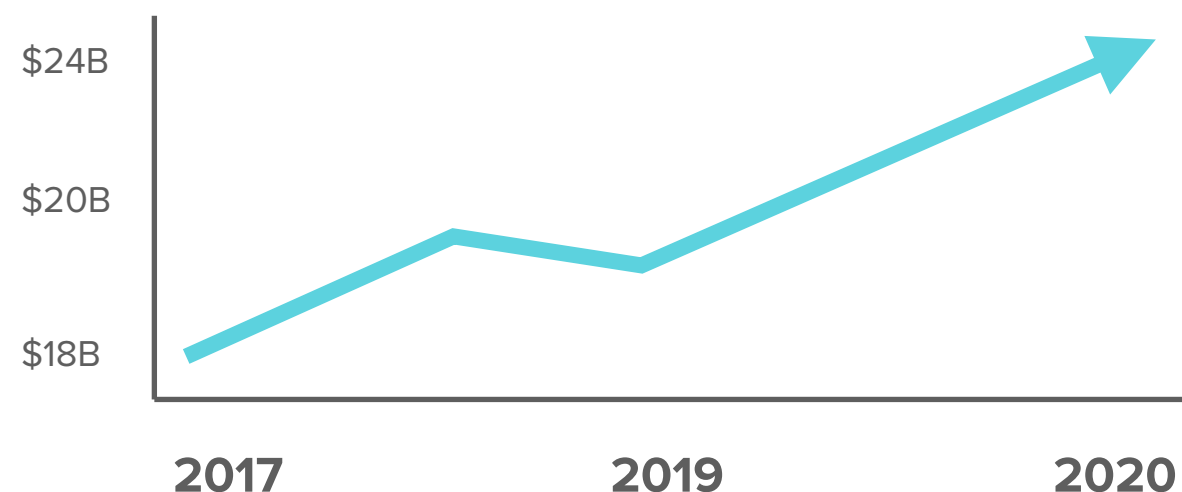

Pedal Power is an inventive technology that redefines how we exercise and take care of the environment.

Our mission is to provide you with an incredible workout and a rewarding experience. During your workout, you can view your stats on the LED screen in front of you, including miles/kilometers biked, calories burned, electricity generated, and trees saved. Our bikes have a generator that connects to your personal power pack; as you pedal, the bike is generating electricity. After the class, you can take your power pack with you and use it to charge any device.

PROJECTED INCREASE IN REVENUE

7.4% growth to
\$24.2 billion by 2020

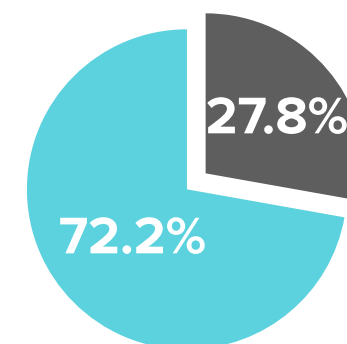

CYCLING CLASS POPULARITY IN THE U.S.

- #1** California
- #2** New York
- #3** New Jersey
- ...
- #17** Florida

MARKET

72.2% women
27.8% men

DEVICE USAGE

91% use devices
during workouts

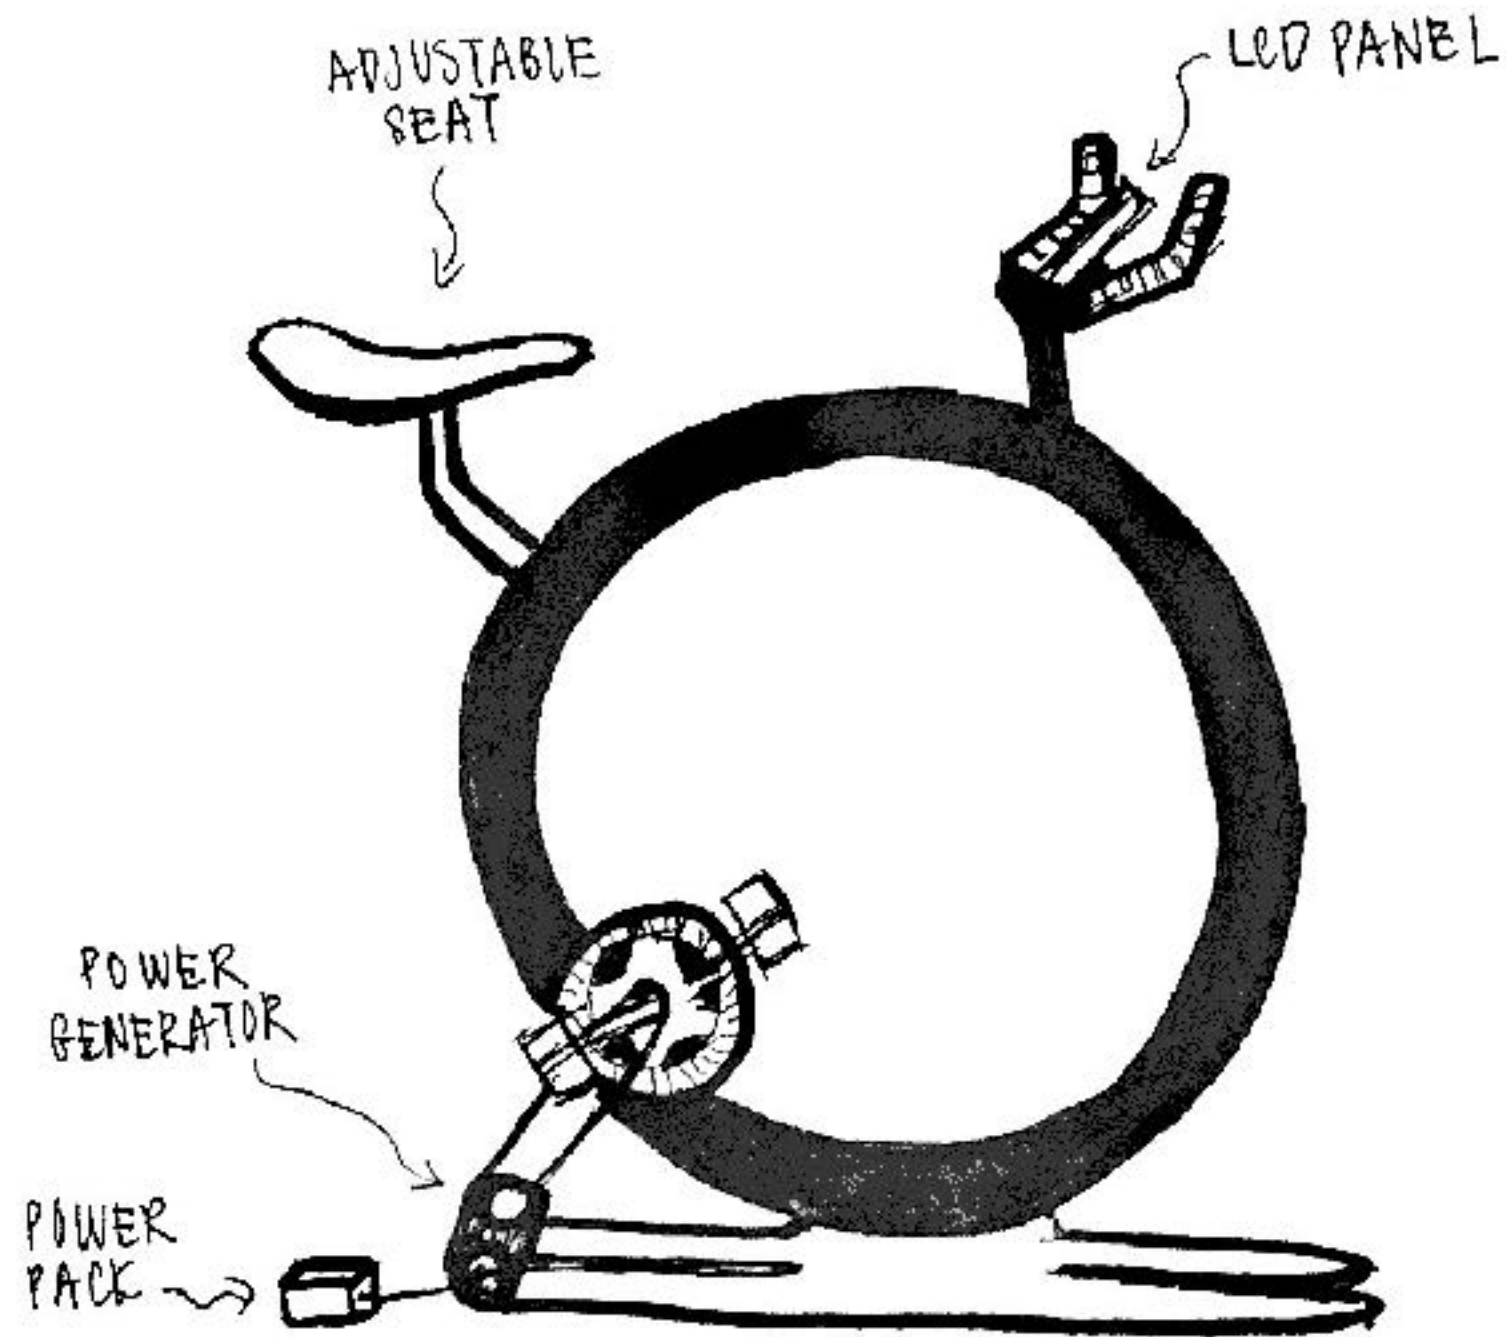

ENVIRONMENTAL IMPACT

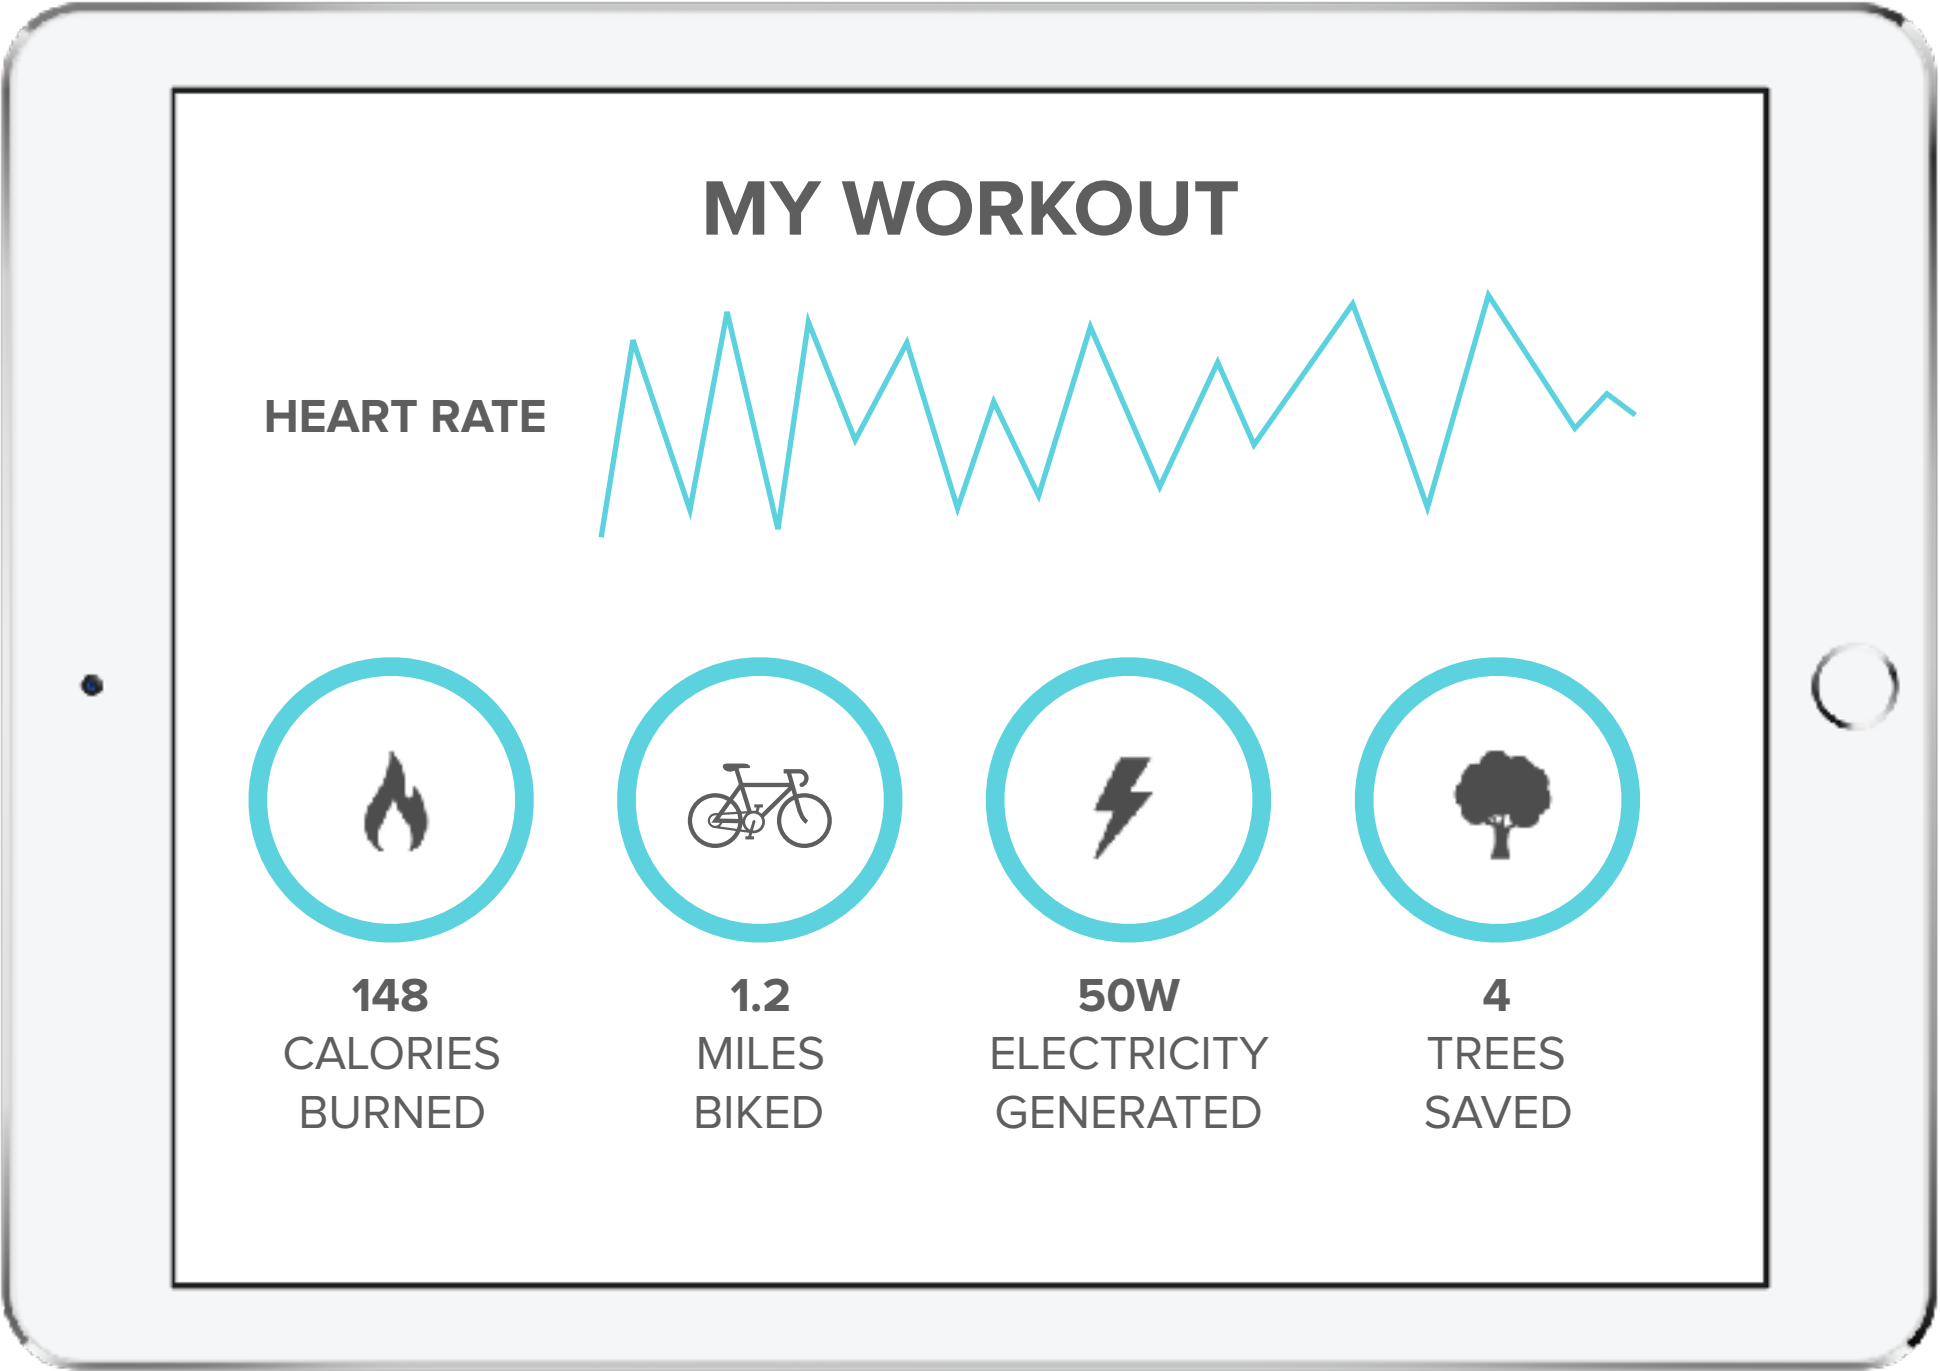

7.2 trees saved per person
per year with Pedal Power^(TM)

PEDAL POWER • **ELECTRIFY YOUR FITNESS**

ONE-PAGER ⚡

LCD SCREEN ⚡

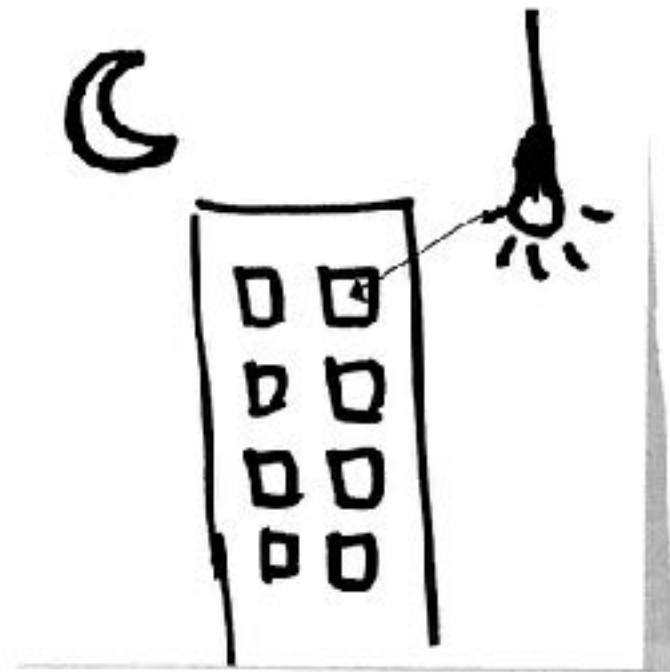

STORYBOARD + SCRIPT ⚡

Everyone wants to do their part to help the environment.

Some things are pretty easy to do, like recycling instead of tossing everything in the garbage.

STORYBOARD + SCRIPT ⚡

OTHERS ARE HARD.

HELPING THE ENVIRONMENT SHOULD
BE MORE THAN AN ITEM ON A
CHECKLIST.

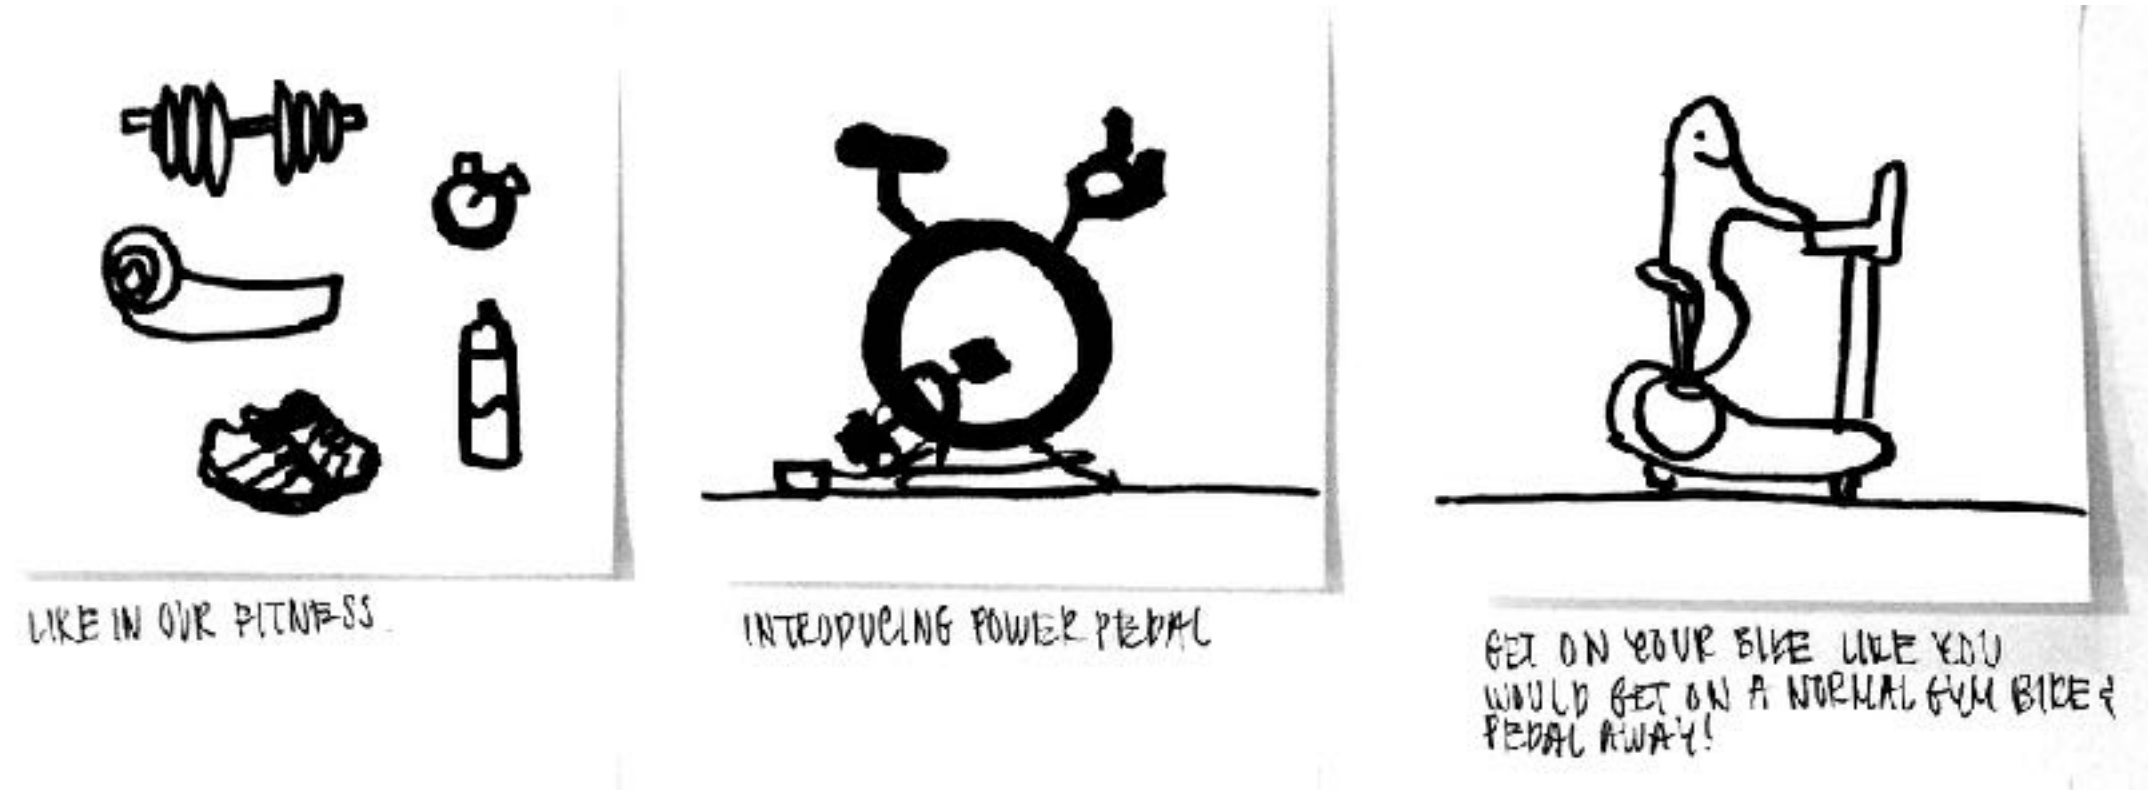

IT NEEDS TO BE EMBEDDED
INTO OUR DAILY LIVES

Others are hard.

However, helping the environment needs to be more than another item on a checklist - it needs to be embedded into our daily lives.

STORYBOARD + SCRIPT ⚡

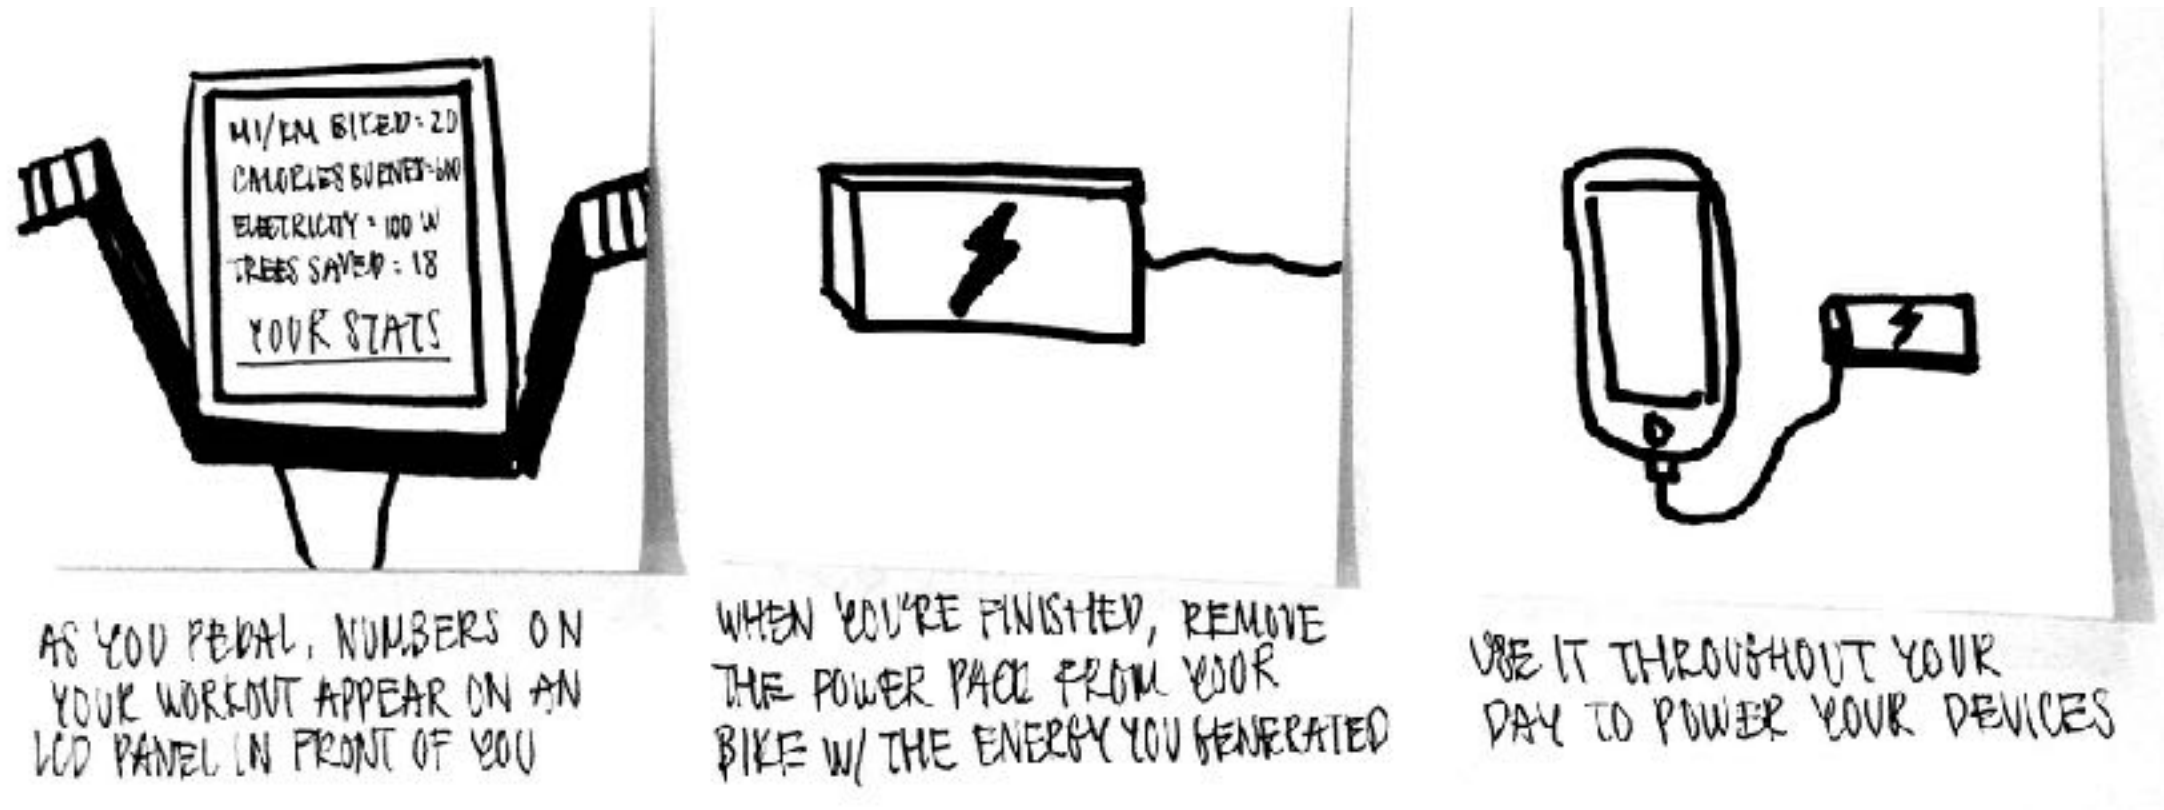

Like in our fitness.

Introducing Power Pedal, the bicycle generator that brings fitness into saving the environment.

Get on your bike like you would get on a normal gym bike, and pedal away!

STORYBOARD + SCRIPT ⚡

As you pedal, numbers on your workout appear on the LCD panel in front of you, including miles/kilometers biked, calories burned, electricity generated, and trees saved from your workout.

When you're finished, remove the power pack from your bike with the energy you generated, and use it throughout your day to power your devices (phone, laptop, etc.).

Pedal Power. Electrify your fitness.
