EXPERIENCE

LYFT

Data Intelligence in 21st Century Transportation
Software Engineering Intern | May - August 2018

Contributed multiple features to data discovery tool for efficient lookup of company data sources. Planned architecture for collaborative real-time editing. Prioritized feature development for beta and open source releases.

NVIDIA

Survey Analytics for Cloud Gaming
Data Platform Intern | January - April 2018

Spearheaded new admin controls and dashboards in survey analytics for GeForce Experience. Coordinated with stakeholders in determining product requirements, designing mockups, and implementing final solutions.

FACEBOOK

Interactive Funnel Analysis for Social Networking
Data Engineering, Analytics Intern | May - August 2017

Constructed data pipelines and visualizations for funnel analysis of hundreds of millions of user experience logs. Acquired internal teams as beta users of proof of concept and integrated the project into future product roadmaps.

UC BERKELEY HAAS SCHOOL OF BUSINESS

Topic Modeling NLP Algorithms in Customer Analytics
Research Assistant | February 2016 - May 2017

Implemented variations of semi-supervised topic modeling algorithms for natural language processing in customer analytics. Performed exploratory analysis with text mining and visualizations to identify trends in transaction data.

HEALTHPALS

Data Visualizations in Healthcare Technology
Software Engineering Intern | May 2016 - January 2017

Developed several end to end features to support data flow through treatment monitoring application. Designed data visualizations of medical data for web + mobile interfaces.

EDUCATION

UC BERKELEY

Class of 2019

B.S. Electrical Engineering
and Computer Science

Berkeley Certificate
in Design Innovation

RECENT PROJECTS

AUTONOMOUS ROVER

A project by Space Technologies at Cal to build an autonomous rover for the moon.

VOICE ALARM CLOCK

An independent voice design project to facilitate the process of waking up.

SKILLS

LANGUAGES

C
Java
Javascript
Python
SQL

DESIGN METHODS

Visual Design (Adobe CC)
Prototyping (InVision)
User Research
